

Downloading TAP App Security

Mobile Devices

- Go to the appropriate app store and download “Tap App Security”
- After the app has been downloaded to your mobile device, tap on “REGISTER”
- Enter your organization’s **UNIQUE CODE** (the confidential code issued to employees at your organization)
- After you enter your organization’s unique code, you must register an account in the system. Type in your:
 - Full Name (First and Last)
 - Email
 - Password (6 or more characters)
 - Position
 - Mobile #

Tap next to the Building(s) you work at, then tap on “**CREATE AN ACCOUNT**”

- After you have successfully registered an account in the system, a pop-up box will appear informing you that **your account must be approved by your administrator before you can log in.** *This is for cyber-security reasons to ensure only authorized members of your organization can access the app

Desktop Computers

- To download TAP App Security to a desktop (Windows or Mac), go to:

<https://tapappsecurity.com/get-app/>

- Click on desktop icon (Windows or Mac) to download the app to your desktop *Your log-in credentials (email and password) for your mobile device account will be the same for the desktop
