

SCHOOL THREAT ASSESSMENT TRAINING & SOFTWARE

This web-based software allows schools to efficiently conduct threat assessment inquiries on students that make indirect or veiled threats of violence or exhibit concerning behaviors.

THREAT ANALYSIS

Schools can now receive threat assessment team training online through our cutting-edge Threat Assessment Course. This training is based on research studies conducted by the U.S. Department of Education, U.S. Secret Service, Federal Bureau of Investigation, and other academic scholars in the violence prevention field. Schools are taught how to establish a specialized internal team that can objectively assess threats made by students in a non-bias fashion. Included with the training, schools have unlimited access to our proven threat analysis software program that was developed to support school threat assessment teams.

CUTTING-EDGE ANALYSIS PROCESS

FULL COMPATIBILITY

Access from any computer or mobile device for more efficient data collection and collaboration.

OBJECTIVE DATA COLLECTION

Data is obtained by all members of the threat assessment team and entered into the system.

RISK-LEVEL CALCULATION

Our quantitative algorithm instantly calculates the data and provides the student's apparent risk-level.

OFFICIAL REPORT

A digital threat assessment report is generated that identifies risk-level to share with key stakeholders.
